TC 1700

I, Masanori Suzuki, declare that:

1. I am one of the applicants named in the above-identified application, and am a joint inventor of the invention described and claimed therein.

2. All the values of saturation magnetization of toners set forth in the Examples and Comparative Examples of the above-identified application were determined by tests performed by me or under my direction. These values are listed in Table 1 on page 73 of the application.

3. All these values of saturation magnetization in the Examples and Comparative Examples of the above-identified application were determined at a magnetic field of 10 kOe, and are, therefore, values of saturation magnetization at a magnetic field of 10 kOe.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
